PROJECTS

IoT Gas Safety System 01/2024 - 03/2024

Pune, India

Developed a fireproof IoT gas safety system with exhaust fan control, automatic shutoff, alerts, and safeguards.

atharvap8.github.io/posts/2024/10/iot-based-gas-safety-system/

Advanced IoT Washing Machine 04/2024 - 09/2024

Roha, Raigad

Designed a smart washing machine controller with ESP32, Alexa compatibility, inverter motor control, and remote feedback.

https://atharvap8.github.io/posts/2024/06/advanced-iot-washing-machine/

BLE Car Security Controller 01/2024 - 06/2024

Akurdi, Pune

Built a BLE-based car security controller with ESP32, immobilizer, ECM integration, door monitoring, and mobile alerts.

https://atharvap8.github.io/posts/2024/10/ble-based-car-security-controller/

Alexa Based Home Automation 04/2021 - 06/2021

Roha, Raigad

Developed an ESP32-based smart home system controlling 14 devices & 1 AC, Alexa integration, EEPROM state retention, and monitoring.

https://atharvap8.github.io/posts/2024/06/home-automation-15-devices/

IR Based Contactless Water Tap Date period

Roha, Raigad

Developed a contactless water tap system with IR sensor, MOSFET switch, solenoid control, and integrated power supply.

atharvap8.github.io/posts/2024/06/automatic-water-tap-v2/

EDUCATION

Bachelor of Technology in Electronics (B. Tech.) 08/2024 - 08/2028

Pimpri-Chinchwad College of Engineering (PCCoE), Nigdi

Bachelor of Vocational Engineering (B. Voc.) 08/2024 - 08/2027

Pimpri-Chinchwad College of Engineering (PCCoE), Nigdi

Higher Secondary Certificate Examination 06/2022 - 06/2024

SNBP Jr. College, Morwadi

Secondary School Certificate Examination 06/2012 - 06/2022

S.P.M. English Medium School, Nigdi

SUMMARY

Passionate E&TC + IoT Engineering student with a strong foundation in electronics, developed from hands-on experience starting at a young age. Completed several projects in IoT, embedded systems, and electronics, including an IoT gas safety system, ESP32-based washing machines, BLE car security controller, and Alexa home automation system. With over 3 years of practical experience working in an electronics shop and continuous self-driven learning, I bring a deep interest in innovation and problem-solving in the field of electronics and IoT.

SKILLS

Circuit Design · Hardware diagnostics ·

Hardware and Software Repair · Embedded ·

Prototyping · Component selection ·

Technical Support · Electrical Installation ·

Equipment Design · Problem-Solving
